About Us

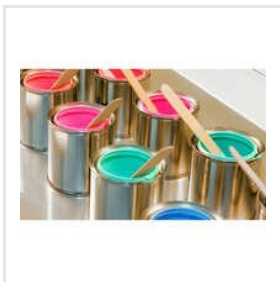

Our well-established company, Ellecha Global Private Limited, with years of industry experience, has established a name for itself as a leading supplier and trader of chemicals. Our offered range includes items like Industrial Resins, Industrial Additives, Curing Agent, Anatase Titanium Dioxide, Aluminium Pastes, and more. We have customized our range, keeping in mind the varied requirements of our customers and current market trends. We supply these products to them at market-leading prices and are supported by our strong logistics, which helps us with their timely delivery.

We value commitment, prompt delivery, and quality upkeep. We have been able to establish a solid reputation in the business in the little time of our existence. In order to help our clients find solutions that improve performance and quality, save costs, and give them a competitive edge in the markets they serve, we offer genuine value and unrivalled experience. Providing our clients with the greatest experience possible is our goal.
