

# ASK AUTO CONTROLS

Industrial and Home Automation service provider

**ASK Autocontrols** provides industrial automation solutions and services. We provide all types of electrical control panels and automation panels as well as field instrumentation.

We are specialized in PLC and VFD based automation panels and SCADA-HMI development. We work in various industries such as HVAC, Boilers, Pharma, Textile, Paper, Chemical to name a few.

We have more than 30 years of experience in industry with our parent companies M/s. ASK INSULATORS Pvt. Ltd. and M/s. ALASKA PUF INDUSTRIES which provides products and services in the thermal insulation industries. Our proprietor, Mr. Divyarajsinh Jhala is an Instrumentation & Control engineer and has previous work experience in this field.

## CONTROL PANEL SOLUTIONS:

We provide all types of LV panels such as MCC, PDB, VFD, PLC, IMCC, outdoor, PCC, APFC as per requirement. We also provide onsite support and programming support for PLCs and VFDs.

## PRODUCTION UNIT:

We are associated with M/s. Shivshakti Engineers, an 18 years old panel manufacturing company, as their “Authorized Channel Partner”. They are ISO and CPRI certified panel manufacturers with in house fabrication with 9-tank process which can fabricate up to IP65 certified enclosures for outdoor usage. They are authorized system integrators for L&T and Schneider for switchgears. With their vast experience and large production team, we are able to deliver panels within planned date.

## SENSORS:

We are authorized dealers of M/s. **Belimo Actuators India Pvt Ltd.** for their sensor range. Universal design across range, snap-on cover, plug-in type connectors, selectable range, NEMA4X / IP65 compliance, output protection are some key features of these products.

To measure various parameters as Temperature, Humidity, CO, CO<sub>2</sub>, Air-quality, Pressure, Differential pressure, Flow, Air velocity which can be duct mounted, wall mounted, pipe mounted or outdoor. We also offer thermostats, pressure switch, Motion sensors, AHU controller.
