Our Approach

As Bonna, we are dedicated to meeting the needs of the present without jeopardizing future generations.

This dedication is one of our corporate principles, placing ethical standards at the very center of our corporate vision since the foundation of our company.

For us, integrity is a crucial quality. Therefore, throughout the production cycle, we consider the problems faced by the world and implement policies for responsible production.

One of our primary objectives is to sustain eco-optimized production. In our factory equipped with cutting-edge technologies, we aim to maximize natural gas and electricity consumption savings in all units.

Our daily operations are carried out in line with circular supply chain management. The water initially used in the production cycle is recycled to be used later. Furthermore, only recycled paper is used for the packing of Bonna products.

Eco-Optimized Production

80% Reduction in Electricity Consumption Using New Generation Press Machines

30% Reduction in Natural Gas Usage Using Advanced Kiln

Of The Total Water Consumed in a year, 80% is The Water Recycled From Earlier Production Stages.

Specifications

The entire Bonna product range identified with the "edge chip resistance logo" challenge the toughest standards and can be used for years by fulfilling the Horeca industry requirements.

Thanks to our durable raw materials and extensive R&D efforts, our products can be safely used in microwave and oven even for the high-temperature requirements of restaurants.

Detailed R&D process gave the translucency and elegant ivory whiteness to all-porcelain products. Our special formula and ingredients add a unique glossiness to our products.

Horeca sector requires fast service-to-cleaning cycles. Our high-resistance glazing process protects all Bonna products in highly corrosive industrial dishwasher environment to meet the fast cycle needs.

The stackable design is an indispensable property, especially in the Horeca sector. Our stackable design offers the best and the most practical solution even in the tightest storage areas.

Our products are durable against sudden temperature changes and under extreme temperature conditions in the kitchen with hard glaze surface and premium raw materials.

Scratches are a common problem in the food and catering sector. With our extensive R&D efforts, our state-of-art glazing technique offers high-level scratch resistance in all our products.

We think of all our customers as our partners and share their passion in the sector as our own passion. Our products are specifically designed to present high value to our customers in their service delivery.

Bonna Cutlery ✦
Grace

Grace, which makes every meal a special memory through a design silhouette that speaks the language of perfect proportions, has a minimalist and contemporary look.

Futura ✦

Futura, reflecting all the characteristics of the Renaissance, is here!

In the 15th and 16th centuries, the Renaissance, which influenced the whole world, revealed the energy of re-existence with art, philosophy, and science. Futura, which we designed using AI technology by blending art, science, and nature as in this special period, will carry the iconic effects of the Renaissance to your table.

The patterns of Futura, formed by natural tones and the fascinating energy of the Renaissance, are reflected on the clear surface of the plate. **With Futura, you will be carried away by the magnificent wind of the Renaissance that inspires everyone...**

Clay has a memory. It tells us the exuberant sound of a titmouse that lived in the past, the soft petals of a geranium, the story of a stagnant river. A cycle that ends always turns into soil and clay before it starts again.

With its sustainable design vision, Bonna Craft Collection carries this elemental energy of porcelain. With its amorphous form, each piece in the collection is unique and has an unrepeatable design. It comes from the past, but also belongs to the future: In other words, it is beyond time. And it is as spontaneous as life itself

Prints by Bonna

A small step for you, a bigger one for them

What we take from the earth, we give it back. We reduce our carbon footprint with the Prints Collection, which we produce from recycled material. We cooperate with WWF-Turkey so that threatened wild animals can take one more step on earth.

Every piece of Prints collection is genuinely inspired by the tail and footprints of threatened species. With every Prints product that can be put on the table, it is possible to draw attention to living creatures whose future is in danger and to make them leave another mark on the world.

Gaia

For the chefs creating extraordinary and exotic flavors, a unique collection with its form and colors: GAIA. Inspired by the creation myths in Far East cultures, we bring unprocessed textures and colors of earth - the source of existence and vitality - to the table. With its exclusive design reflecting the mystical atmosphere of Far East, the GAIA Collection symbolizes the "harmony in contrast". Combining sharp and round lines, matte and bright glaze applications and contrasting color transitions, GAIA offers an exciting background for your presentations.

Explore the unique art of tea with small and unique teapots. They allow more careful temperature control and while reducing the bitterness that may occur in the flavour of the tea and increasing its aroma. Their shape helps the tea leaves to expand and mix better with water. These qualities create a combination of heritage, where you enjoy the rich flavour of your tea while taking good care of your body.

Go on a mystical journey of thousands of years of history while brewing the best plants of the earth. Now, Bonna Premium Porcelain has a new collection: Herbal Tea Pot Gaia and Herbal Tea Pot Artisan. These new teapots unearth tea's medicinal and spiritual paths and rituals in every brew. Reflecting Bonna's gratitude for the earth and appreciation of luxury presentations, they radiate tea's history with unique colours and a luxurious bamboo handle.

Notte

Inspired by the Italian word for "night", NOTTE takes a privileged place on the table with the strong presence of black: the color for dignity, power and mystery. Thanks to the black glaze application covering the whole body, NOTTE pieces keep all the secrets the chef whispers to the plate; they only let the vivid colors and shapes of the presentation speak for themselves.

Luz

Designed to add your personal touch to your magnificent main course and dessert presentations, Luz takes its textured mosaic pattern from digital printing technology that brings a new breath to design. It's time to reflect the magical and unique tones of nature on your table! Inspired by the soil, the main source of life that surrounds the top of the earth's crust, the Luz series will bring the most elegant form of simplicity to your presentations with its abstract colours. The harmony created by Luz, which comes together with the glorious colours of the soil, the life energy of mother nature, will accompany the most beautiful moments of the tables.

Mesopotamia

Inspired by the breathtaking mosaics of Zeugma and Efes ancient cities; dedicated to the fertile lands of Mesopotamia - the cradle of civilization... Each piece of Bonna's Mesopotamia Collection is decorated with original figures created through the interpretation of ancient period mosaics. All items can be mixed and matched; and if used separately all are unique and outstanding. Greet and embrace the past with the Mesopotamia Collection.

Viento

All avenues of Mediterranean region stretch out to blue, and all winds carry inviting aromas of exquisite flavors. We bring the original texture of Portuguese pavement to the background of Viento Collection, and decorated the rest with Mediterranean blue colored patterns each hand drawn individually. Viento simply became the elaborate symbol of a never ending summer on the table.

Madera

Using the surprising harmony of green and bright copper tones, Madera Mint Collection appeals to chefs in search of a different and ambitious playground for their presentations. With impressive tonal transitions and random crack effects, the collection empowers the background accompanying the meal; yet leaves the scene to the food itself despite its intense and dominant presence.

Sepia

With its hazy patterns applied on a dark background, the Sepia Collection creates a mystical base for your presentations. The contrast color selection, which makes the colorful ingredients of the presentation look more vivid, allows the chef to achieve more striking results with less effort.

Tradition meets Modern Culinary Art

We create porcelain tableware products using traditional techniques of pottery and ceramics art excelled in thousands of years, yet opening space for new and creative applications to meet the expectations of modern dining experience. Bringing together the tradition and today's culinary art, we are inspired from the past to shape the future of porcelain tableware...

Care

The durability of porcelain derives from the preparation process in which it is carefully heated, and its white and pure appearance comes from its natural raw materials. Just like those who expect and show hygienic care and healing attention during hard periods...

The Bonna Hospital Series, comes to life with porcelain symbolising health and strength, has been prepared to present different tastes in a hygienic way with its ergonomic and special design. With this special series, bring together both the patients in the hospital and the healthcare professionals who support them with a safe, privileged and attentive taste moment.

Halo by Can YALMAN

— *“Halo collection emerged from the knowledge of very different concepts. The focus of this series consisting of circular forms has always been food. This aesthetic spreading from the center is actually a natural flow of nature and the universe. Food is an energy source for us such as that we can be fed with the energy that the sun gives us from the center. In Halo design, we wanted to create a form and reflection of light that feels, reflects, and expresses this energy.”*

Special edge design of HALO Collection awaits for master chefs, to deepen the presentations they create using dozens of colors, aromas and flavors. Inspired by the movement of the universe and the dynamics of nature, angular design of circular forms uses the reflection of light impressively. Thus this effortless simplicity allows you to create spectacular presentations and make food the hero of the whole setting. Crown your presentations with modern and balanced touch of HALO Collection, mirroring the circular motions of nature.

East *by Robin Levien*

“For East, we looked at the national flowers of many Asian countries. It was the perfect inspiration as the flowers are all different, but also similar and that is what we wanted for the items in East. East is designed to bring some fun to the table and for meals to be an enjoyable and memorable experience.”

The elegant form of Far Eastern flowers meets porcelain and creates an exquisite touch to your presentations. Specially designed for Bonna by one of Europe’s most successful and innovative designers, Robin Levien, the EAST Collection provides a perfect fit with all kitchens and offers a distinctive playground for the “designers of food”.

A 40-year love affair with cutlery collections...

Nick Holland Design is a leading British product design company founded in 1997 with its main studio based in Porto, Portugal. He specialises in the design of tableware and homeware products, particularly ceramics, glass and cutlery collections. His clients are high quality manufacturers in many different countries around the world. Nick Holland has been designing cutlery collections for nearly 40 years, from collections inspired by a knife his mother received as a wedding present to pieces he dreamed up after observing an Eskimo fisherman's knife.

Grace

Designed by harmonising the Japanese design concept 5 with the Scandinavian design tradition, Grace is presented to you by processing stainless steel with elegant touches to appeal to the fine dining experience. Grace, which makes every meal a special memory through a design silhouette that speaks the language of perfect proportions, has a minimalist and contemporary look.

Designer's Notes:

"The whole experience of Fine Dining is enhanced by the ambiance of the restaurant, with the presentation of the food playing a major part. To complement the creations of the chef and feast the eyes as well as the palate, the food service should be perfect. The cutlery for Fine Dining plays an important part in this, so I set out to design a beautiful collection that would enhance the experience, as well as being practical and comfortable to handle and use. The design is contemporary but also beyond time. Clean pure lines, elegant, nice proportions, well-balanced weight, sophisticated."

Illusion

Illusion adds a strong elegance to contemporary or classic tables with its embossed, classic stripe patterns and can be paired with almost any tableware. With its clear, simple, universal lines, it is functional enough to meet the needs of every business.

Designer's Notes:

"I wanted to make a modern and universally appealing design of cutlery ideal for banquets and catering events of all types. The clean lines and simplicity of the design are beyond time and will always be in fashion."

Vogue

The soft, curved lines of the Vogue Collection provide a more comfortable grip during meals, making it a great choice for casual dining. With its sculptural shape and Scandinavian stance, it is a unique collection for a modern, cosy and casual style to your table.

Designer's Notes:

"I created this casual modern design with nice flowing lines and a slightly Nordic character. With bistros and relaxed restaurants in mind, this range is ideal for any Casual Dining venue and cuisine. Functional to use and comfortable to handle adds flavor and zest to any mealtime whether Italian, French, Asian, or Fusion food."

Mix Lab

Mix Lab is designed to be compatible with many products such as cups, mugs, bowls and teapots. During design, ergonomics and aesthetic concerns were taken into consideration. It provides ease of holding thanks to its form. It is made of natural beech wood. The type of wood used has a structure that goes with porcelain products. Mix Lab consists of 2 main parts. The first part is the main body and the second part is the disc section consisting of linear bearings. The bearings in the disc section are compatible with a lot of cups, mugs and teapots, etc. Thus, it can be used in different presentation types. In addition, the easily removable disc is also suitable for soup bowl usage.

Coffee, which contains the secret of a thousand-year-old story in its core; it is the most elegant narrator of the multicultural symphony between civilizations. With the AromaLab collection; We add our own interpretation to this symphony, bringing the real coffee experience together with a stylish design and inspiration from the earth. AromaLab, where you can experience the pleasure of coffee aroma and the mastery of brewing types separately in each part of the collection; If you wish, it will be the most aesthetic accompaniment of your guests' pleasant conversations in the presentations you prepare, or if you wish, of their inner journey.

To feel the love and care that goes into a cup, to take time to ground yourself through an object born from the earth, water and fire...
 The Bonna Raw Collection pays homage to lightness with its organic and delicate forms. Offering beauty combined with functional simplicity, the Bonna Raw Collection wraps your hands with its embossed lines and adds a stylish decorative signature to your kitchen. Its white colour provides a bright canvas for your favourite beverages.
 Thanks to its ribbed design, each piece in the product family is lighter than the products on the market. In addition to the coffee cups designed separately for different types of coffee, the dripper planned for the 360° coffee brewing ritual carries the same design identity.
 Although the designs are inspired by random pattern sketches, natural forms and marine animals, they stand away from visual noise and give you the chance to slow down. As you stand in this colourful jungle full of life, you will feel your mind calm down with Bonna Raw.

Softline

While enjoying the rich flavors of coffee enhanced with pure touch of porcelain, you can also treat nature with the kindness and care it deserves... As we continue our sustainability journey, we are doing our part to reduce the use of paper cups and plastic containers in food and beverage industry. With our SOFTLINE porcelain cup collection, we offer an eco-friendly, healthy and colorful series for coffee lovers, while adding comfort to city life with an alternative size that can also be used as a portable bowl.

Product Care

Porcelain Care

- You can safely use decorated, hand-painted, or white porcelain products in ovens, microwaves, and freezers.
- It is not advised to move porcelain from a hot oven to a freezer or vice versa because porcelain is a hard but delicate substance that can break with sudden changes in temperature.
- You should not put porcelain on open fire unless it is designed especially for that purpose. (Example: Eared dish)
- In the case of black marks on the porcelain surface caused by metal cutlery, an appropriate steel cleaner or vinegar can be used to remove the marks.
- Caution is advised not to rub metal hardware with Porcelain while washing by hand or in a dishwasher.
- You should not use metal washing wire and tough scrub sponges when washing Porcelain surfaces.

Glass Care

- Glass material is safe to use in food storage and for hot and cold food. Food can be directly stored or served with glass products.
- Glass is a recyclable material and safe for human health.
- All glass products are dishwasher safe including industrial dishwashers. It is advised to avoid harsh chemicals to clean the glass products. Harsh chemicals might corrode the surface of the products.
- Do not scrape the food leftovers with a metal utensil to avoid any damages on the product.
- Over stacking is not recommended as glass is a fragile material.
- It is not safe to use the glass products in oven and microwave. Additionally, direct flame, excessive heat or sudden temperature changes should be avoided for product safety.
- Always wash all the glass product before using for the first time.

Wood Care

- Before using for the first time, scrub with saline water, wipe off in time, and leave to dry. For daily maintenance, it can be wiped with olive oil.
- The surface of the wooden board can be damaged when knocked with harder materials.
- Solid wood boards have natural surface textures; therefore, they may differ in their appearances.
- Avoid soaking the wooden board for too long. To prevent bacteria growth, wash and dry it in time.
- Vegetables, meat, fruit, and other food materials can be easily processed on the wooden board. However, avoid too much chopping of hard food materials such as bones to prevent the wooden board from being damaged.
- It is not advised to leave wooden products in damp places for a long time.
- Avoid exposing wood materials to the sun for a long time. Increased loss of moisture could lead to wood cracking.
- It is recommended to use a soft cloth when cleaning. Never use metal wire for cleaning.
- You can wipe the surface with olive oil to extend the useful life of wood products and remove knife traces.

Care Instructions

Stainless Steel Maintenance

- Stainless Steel is much more resistant to staining or scratching than other metals, but contact with certain substances can trigger the process that causes staining and corrosion.
- Things to consider to avoid this process and maintain the quality of your cutlery:
- Storage Conditions: Do not store the products in humid and humid environments against the risk of corrosion. Do not expose to direct fire, this may cause marks on the product.
- Waiting for a long time with tap water, oils and cooking water containing acid, lemon juice, lime, and mineral salts may cause corrosion. Do not soak in chemical detergents such as bleach and bleach, which are other abrasive materials.

Dishwasher Care

- We specially designed our products to withstand the harsh conditions of the gastronomy industry, including automatic dishwashing common to most businesses.
- Before washing cutlery, make sure that we remove all food residues before pre-rinsing, washing. Follow the manufacturer's instructions, especially regarding adding dishwasher salt, as excess salt can spoil it. Wash the cutlery as soon as possible, do not leave it in food residues for a long time.
- We recommend it to place the cutlery vertically with the heads of the dishwashers up, and not placing them too tightly helps to use water during washing. Remove the cutlery immediately after completing the washing/drying cycle and wipe them with a soft, dry cloth.
- If the cutlery is allowed to cool on its own in the dishwasher, traces of mineral salts, limescale and dishwasher salt residues can settle on the damp impact cutlery and set up to affect pitting and staining. Never wash stainless steel and silver-plated cutlery together in the same compartment of the dishwasher. The chemical values between the detergent and the steel can cause chasing in silver products. Do not use the rinse and soak programs for cutlery in dishwashers. This may cause damage to the cutlery from the soaking process.
- Electrical leakages can cause deterioration of arc carriers, tanks. To avoid this situation, make sure that your dishwasher has a grounding line.
- Never use metal wire or brush when cleaning forks, knives and spoons.
