Chaque recette a son secret*

Every recipe holds a secret

Since 1830, we have been perpetuating ancestral production practices handed down through generations, and we nurture values such as humility, respect and fairness, which we season with a pinch of innovation. Like the Chefs, we carefully measure out these ingredients until we achieve the perfect blend.

Prepare your taste buds: in this new catalogue, we reveal some of our biggest secrets.

Feast your eyes and enjoy!

Thank you for your ongoing loyalty.

MICHEL ROTH INTERVIEW

Michel Roth is one of the most accomplished chefs in the world, having been awarded some of the most prestigious titles in French gastronomy: in 1985 he won the Pierre Taittinger International Culinary Prize, before receiving the Bocuse d'Or and Meilleur Ouvrier de France titles in 1991. Michel Roth represents the epitome of haute cuisine and excellence. Originally from the Grand Est, a region of France which he holds particularly dear, Roth shares strong values with DE BUYER.

This is why he agreed to become our ambassador. A deeply humble and incredibly kind individual, in this interview he shares with us the secrets of an exceptional career.

How did you discover your passion for cooking?

From a very early age I was often in the kitchen with my mother and grandmother, they were the ones who taught me my first recipes. It was my father who saw the beginnings of my passion and said to me one day, "You will be a chef." I began an apprenticeship at 15, working for a friend of my father's. It was very hard in the beginning because I didn't really have any concept of how things worked, I didn't know the hours of the job... I immediately had to get used to such constraints. I lost my father a few months later and my master somewhat took me under his wing, which is not to say he went any easier on me! Over time I started to enjoy the job more and I began to take an interest in working with the products: making vinaigrettes, preparing trout with almonds, and so on.

What was your most important encounter?

My apprenticeship master to begin with. He was the one who told me, "You need to get moving and go to the capital." It was with his help and some audacity that I was lucky enough to join Guy Legay's team at the Ritz, which was the other important encounter at the start of my career. He encouraged me to enter competitions. He had confidence in me. That wasn't always easy day after day, because you

had to be good.

What advice would you give to young people looking to work in cuisine today?

The beginning of the career is very important and stays with you forever. I never stop thinking about it. In my view it was those first years that were the most important. They mould you. Even if they are difficult at times, they form the foundations. You learn what you need to know little by little. Passion, meanwhile, is something which surfaces and then grows as the years go by.

If I had to give one piece of advice, it would be to have patience. Don't cut corners. Cooking is a job which requires a certain level of experience, and you need things to mature before the finest notes can emerge. Always be ready to listen, take a step back, enjoy the moment and savour it before turning a corner.

You won a number of different competitions. What did you take away from that?

I won several competitions, more or less within the same year. I don't like focus on those kinds of awards but I do believe that they help you to find new ways to look at things, new techniques, new products.

Those competitions lent me recognition in the field. That

opened the door to the big leagues. I received a lot of invitations, particularly to go abroad, but my attachment to my family and Lorraine meant that I refused. I had never experienced any of that before the competitions.

It's nice to win a competition, but you shouldn't forget your responsibilities. This is a long-term commitment where you shouldn't get carried away; it embodies the values of respect, work, and excellence. You have a duty to stay on top of your game.

It's said that people from Lorraine are tough but demanding in their work. What do you think?

I see it more as reserved, discreet, cold even, that much is true. There are a lot of talented young people in Lorraine but they don't try hard enough to stand out. These are sincere, hard-working people. I don't know if it's only in Lorraine that you find people like that. When I was an apprentice, I took every opportunity to go home and see my family in Lorraine. That's why I never wanted to go work abroad, because I'm so attached to my region. I also return regularly to the places I trained.

Every recipe has a secret, what's yours?

My cooking starts first and foremost with the basics, and traditional, seasonal and regional food. Next I create flavours and mixtures, following my instinct in the moment while trying to create something surprising. I like to play with a carefully balanced touch of bitterness, which can introduce an element of surprise. I also like to play with acidity, as it can reveal the flavours. It's often the proper balancing of these tastes that makes all the difference, and that's where the complexity lies. Precision in cooking is also important.

Why did you agree to become our ambassador?

It seemed like a natural fit and I feel very connected to DE BUYER. This company embodies the history of our region, a history of family tradition which is being modernised but which maintains a solid foundation. The people working there act as if they're making pans for themselves. I can see the values I appreciate at DE BUYER: precision, simplicity, respect, work, craftsmanship, and an attachment to the region. There's a level of excellence while maintaining humility. That's rare, and that's what makes the difference.

**«I CAN SEE
THE VALUES
I APPRECIATE
AT DE BUYER»**

Those values are also what I look for in my teams; everybody is working with a sense of sincerity.

How did you get to know DE BUYER?

I've always known about the brand because it's a brand from my region. I've always held a very positive view of the brand's image, which represents reliable, quality products. This image has developed a great deal over time and it has increasingly turned towards modernity and innovation. I've had the opportunity to use DE BUYER products throughout my career and to see these developments take place through the partnerships you've established with chefs' associations.

We believe that good cuisine needs good chefs and good ingredients, but also good utensils. What do you think?

That's certainly true; if you only knew how many times we've said the same in the kitchen. Half of the work done by a good chef comes down to having good products, products prepared by passionate artisans which give us the chance to make the very best of a recipe. But we can't do that without the proper tools.

Our work in the kitchen requires precision and our equipment is our closest ally, allowing us to express ourselves in a dish with ease, safe in the knowledge that the result will be just perfect!

Michel Roth currently acts as Culinary Advisor and chief executive of the Michelin-starred Bayview restaurant at the Hotel President Wilson in Geneva. He also approves the menu of the 'Terroirs de Lorraine' restaurant in Metz railway station.

by Michel Roth

 4	 90 minutes	★★★ level expert
---	---	---------------------

CHICKEN:

2 free-range supremes of chicken,
40 g of butter,
2 sprigs of thyme,
2 cloves of garlic

CHICKEN JUS:

1 chicken carcass,
1 carrot,
1 white onion,
1 leek

PUMPKIN:

$\frac{1}{4}$ pumpkin,
2 button ceps, 20 g butter

CELERIAC PUREE:

1 celeriac,
50 g butter,
100 g cream,
salt, pepper

THYME CRUMBLE:

30 g flour,
30 g ground almonds,
30 g butter,
2 g fleur de sel, 15 g thyme

CEP DUXELLES:

250 g ceps,
40 g shallots, 10 g butter,
15 g chopped parsley

CEPS CONFITS:

300 g ceps confits,
50 cl grape seed oil,
2 cloves of garlic,
thyme,
salt, pepper

FINISHING

AND DECORATION:

250 g puff pastry
1 tray of astina cress (or chervil)

COOKING THE CHICKEN:

Brown the 2 supremes of chicken in a frying pan on each side until they are a pale golden colour. Add the butter, garlic and thyme and then cook the supremes in the oven for 20 minutes at 180° C. Remove them from oven and leave to rest. Cut them in 2 when you dress the plate.

JUS:

Take the chicken carcass and brown it in a saucepan. Add the vegetables and enough water to cover the carcass. Cook for 30 minutes, remove from heat, strain through a fine sieve and then reduce the resulting liquid for 20 minutes. Keep hot.

PUMPKIN AND WHOLE CEPS:

Peel the pumpkin and cut into half-moon slices. Halve the ceps. Roast the pumpkin slices and ceps in a frying pan with the butter.

Put in the oven for 20 minutes at 170° C and then set aside.

CELERIAC PUREE

Dice the celeriac, rinse, cook and drain. Blend in a food processor to obtain a puree. Add the butter and cream, season to taste and set aside.

THYME CRUMBLE:

Blend all the ingredients to a homogenous paste. Spread the paste out on a sheet of baking paper to a thickness of around 1 cm.

Bake in the oven for 15 minutes at 160° C.

CEP DUXELLES:

Chop the shallots finely and sweat them gently in the butter without colouring them, add the sliced ceps and cook on a low heat for 15 minutes. Chop everything and add the chopped parsley. Check the seasoning.

TARTE FINE WITH CEPS

Roll out the puff pastry until it is quite thin and then cut 4 circles with a diameter of 8 cm and place them on baking paper. Bake in the oven at 180° C for 20 minutes. Slice the confit ceps and arrange them on a sheet of baking paper in the shape of a circle with a diameter of 8 cm. Place the confit cep circles (with the baking paper) in a frying pan and cook until pale golden in colour.

Assemble the dish, starting with the cep confit circles, then top with the cep duxelles using a piping bag and finish with the circles of puff pastry.

Then turn the tarts over carefully.

FINISHING AND DRESSING:

Place the supremes of chicken on a plate and then the cep tarte fine. Make dots with the celeriac purée and arrange the leaves of the astina cress (or chervil).

Add the pumpkin and mushrooms and the thyme crumble.

Finish with the chicken jus and the roasted half-ceps to garnish.

2-level smoker oven for hot and cold smoking - Stainless steel

Food is subjected, over a prolonged period, to smoke which has an antiseptic effect and increases shelf life, at the same time enhancing the taste. Smoking gives food a woody taste. More specifically, you can smoke meat (steak, chops, filet mignon, etc.), poultry (chicken, duck, etc.), charcuterie (essentially ham, bacon, large sausages, small sausages, andouilles [spicy sausages]) and fish (salmon, trout, eel, mackerel, etc.). The principle lies in exposing food to smoke at different temperatures, depending on the desired result.

High Tech Pro Knife sharpener 'DIAMOND CAMS'

DIAMOND CAMSTM
PRO KNIFE SHARPENER

Resulting from many years of mechanical engineering R&D, the de Buyer 'DIAMOND CAMS' sharpener generates perfectly shaped and fine slightly convex edge bevels every time. Simply swipe any blade down and back through the highly engineered diamond-coated solid steel cams until the edge is razor sharp. Two stages in one: swipe light and shallow for everyday honing, and hard and deep for edge resharpening, including complete regrinding of old blades. More accurate than manual steel and stone methods because human error is eliminated with the accurate angle control of the sharpening/honing cams. Patents pending.

The various pastry ring shapes allow a pastrycook to make cakes which are good-looking and original, enabling him or her to stand out from the crowd. What's more, the original shape of the cream cake is itself decorative and therefore cuts back on decorating time. The st. steel ring keeps its shape throughout its use but is not too thick for good heat convection during cooking.

An absolute must for caramelizing Catalan creams, flans, meringue tarts, or apple tarts, melting cheese, browning meats, peeling tomatoes, and even for paint stripping! Easy and safe to use with its automatic

piezoelectric ignition button and adjustable flame. For use with Butane gas (lighter gas). Easy-to-fill tank.

St. steel caramelizing iron

Code	Designation	Kg
3052.15	With bowlamp "Soudogaz X2000" (No smoke, no smell)	1,1
3052.16	Iron alone for X2000	0,5

The caramelizing iron is a stainless steel fitting that goes on the portable Soudogaz blowtorch and protects the mixture from the flame. If you use a naked flame on crème brûlées, Italian meringue, etc., to caramelize them, this is toxic and gives a burnt taste to the

food instead of a caramel flavour. This iron is sturdy, space-saving compared with an electric iron.
