# BUSINESS WITHOUT BOUNDARIES

1. Company Profile
2. Our Vision
3. Our Mission
4. Corporate Philosophy

## 1. Company Profile

Infinite Impex company and leading manufacturer and exporter of high quality brass turned components as per customer's specification (Drawing and Samples) located in India. We specialize in Manufacturing and supply of brass components used for different industries like aerospace, marine, oil and gas, electrical fitting, electronic, fasteners fixtures, pneumatic fittings, Hydraulic Hose & fittings.

We can understand the product better than the local distributors because our buyers are directly in touch with the Technical people in our factory in India. It also helps to avoid any communication error and consumes less time to develop new products for our buyers.

Secondly, we can offer most competitive prices because it is direct factory selling. Entire Manufacturing Process is conducted in our in-house factory in India; hence we have total control over products. We can manufacture Brass Components from 1/8" (3mm) to 6" (150mm) in diameter. All our Brass Parts Components are checked and are available in small / tight tolerance.

## 3. Our Mission

To build and professionally manage a successful business that provides satisfaction and growth towards Customers, Employees and Vendors while contributing towards environmental care and social development.

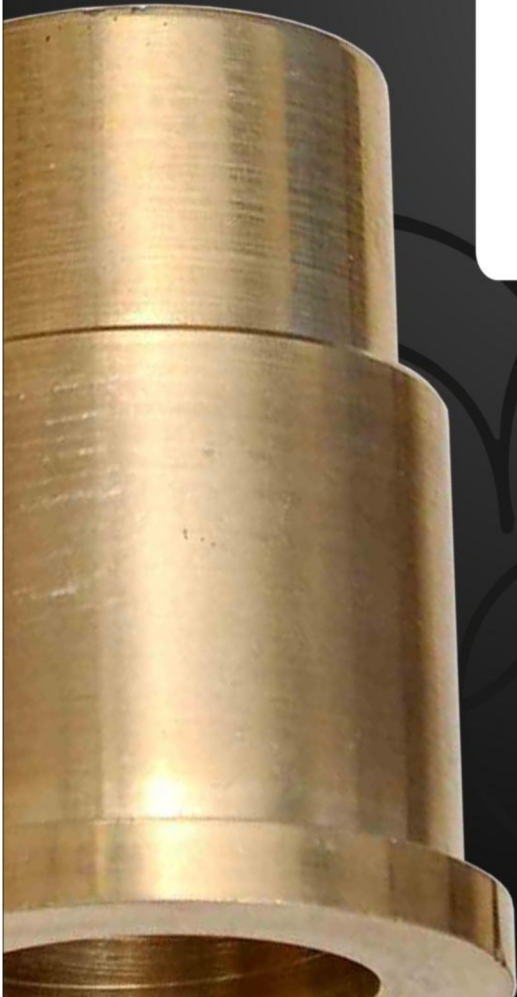

## 4. Corporate Philosophy

- To place customers first, know their needs and strive to meet their expectations and continuously improve to serve them better.
- To position the company unmatched in business efficiency and productivity through "4M" manufacturing philosophy (Material, Machine, Method & Manpower)
- To expand into value added products downstream activities and operations through strategic partnerships.
- To be a responsible corporate citizen.
