● Company Introduction

We, Bangwool Land Co., are a company specialized in giant bubble solution. Giant bubble solution is produced based on fusion technology combined with surfactant technology and rheology technology. We have experienced in the technology for more than 20 years and been in the giant bubble solution business for more than 16 years. The feature of our giant bubble solution makes it possible for you not only to create giant bubbles but also play with them in various forms as they are elastic and maintain their forms longer time. By using such feature of our bubble solution, you can enjoy both bubble shows and amazing and funny bubble plays.
