● Company Introduction

BODYLOGIC is a company that specializes in functional clothing to facilitate the happiness of customers through good posture and a healthy and beautiful body. We produce and sell new-concept functional clothing applying the Torque Band of Multiple Densities technology (TBMD), a patented technology. BODYLOGIC is a functional clothing brand that improves posture using the biomechanical characteristics of the body.

● Features

● Specification

[Classic
Angle Tights](#)

Classic Angle Tights is Functional clothing (patented in Korea, China, Japan, and Europe) that applies a taping therapy method. Can be used year-round. It improves the balance and posture of the body and shapes the body beautifully using the patented technology Torque Band.

Classic Angle Tights lifts the **pelvis** and wraps it stably, presses the **lower abdomen**, stably supports the **waist**, lifts the **hip line**, rotates the **thighs** for resilience and slimming, protects the **knees**, rotates the calves for a slimmer line.

Classic / Light
Mid-thigh
Girdle

Light type has the basic function and provides a thinner, comfortable wearing feeling. It is comfortable to wear year-round, even during the summer.

Mid-thigh Girdle lifts the **pelvis** and wraps it stably, presses the **lower abdomen**, stably supports the **waist**, lifts the **hip line**, rotates the **thighs** for resilience and slimming. The ergonomically-designed quadruple direction taping (torque band) straightens out rounded shoulders and improves forward head and sway back.

Tank top

Tank top shoulder bands wrap around the **shoulders** as if pulling with your hands and pull the shoulders towards you back and straightens them.

All bands are connected and support the back.

Tank top has excellent air permeability and absorptivity.

Light type has the basic function and provides a thinner, comfortable wearing feeling. It is comfortable to wear year-round, even during the summer.

Light
Nee Tights

Light Nee Tights lifts the **pelvis** and wraps it stably, presses the **lower abdomen**, stably supports the **waist**, lifts the **hip line**, rotates the **thighs** for resilience and slimming, protects the **knees**.

Light type has the basic function and provides a thinner, comfortable wearing feeling. It is comfortable to wear year-round, even during the summer.

Light
Short Girdle

Short Girdle lifts the **pelvis** and wraps it stably, presses the **lower abdomen**, stably supports the **waist**, lifts the **hip line**.
