Chameleon 4

세계 최초 ! 4컬러 자동조색 시스템 <카멜레온4>

The world's first patented invention!

Chameleon 4, the 4-color automatic coloring system using paints.

세계 최초 발명 특허제품(대한민국 발명특허 제10-0707295)

4가지 색상의 페인트를 자동 혼합하여 한번에 분사!

유리, 금속, 아크릴, 목재 및 건물 내외부 도장을 손쉽게!

작업자의 아이디어에 따라서 무한한 패턴을 표현할 수 있는 획기적인 시스템!

The world's first patented invention!

(R.O.K Invention patent NO.:10-0707295, International invention patent pending)

Coat 4 colors for marble texture, with just a single application of paints!

Easy to coat woods, metals, glasses, acrylic and building!

Breakthrough paint equipment to express various colors!

ISO 14001:2004 Certification
CHEIL **Cheil Art Gallery**

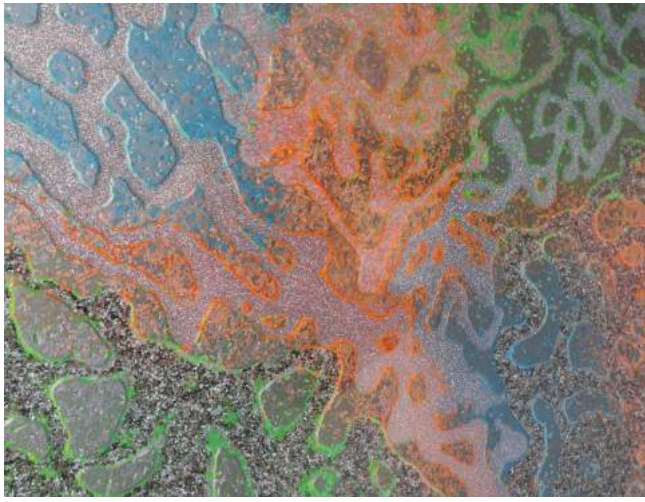

Pattern Sample

■ Painting the surface of glass, acrylic (The paint type : oil paint)

Chameleon 4 can paint in the desired colors, even the smooth materials like the surface of glass that can be coated only with oil paints.

Even in the case of materials like glass, acrylic Chameleon 4 produces effects greater than those of water paint (Zolaton) when it is applied to wood.

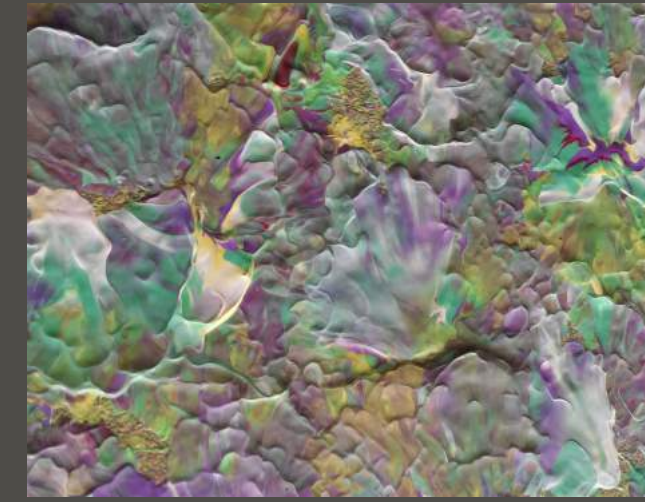

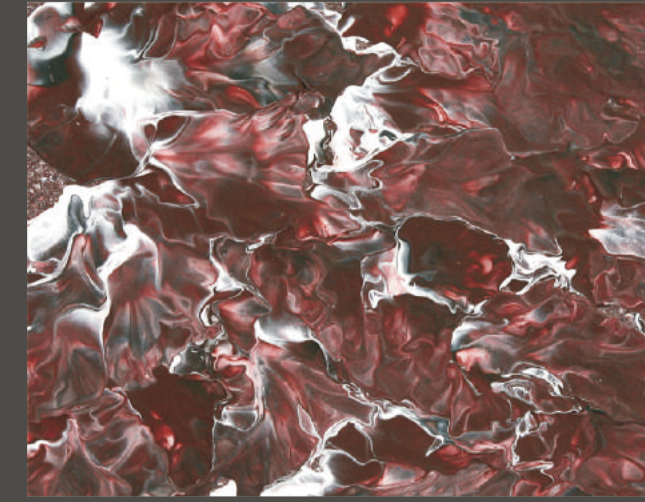

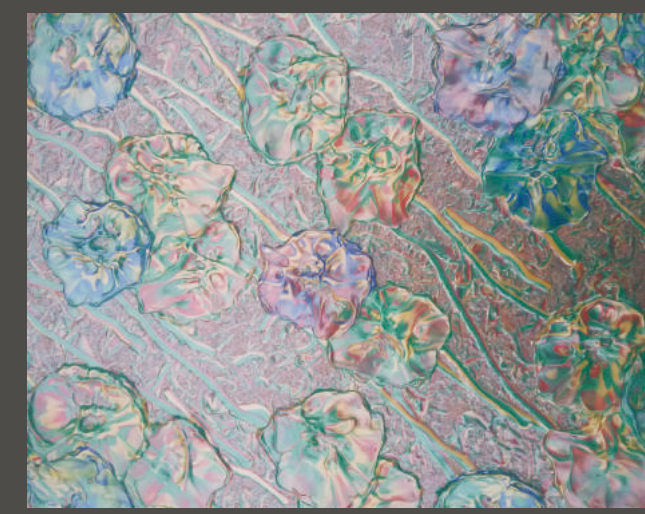

Pattern Sample

■ Painting the surface of wood (The paint type : water paint)

Chameleon 4 produces the more superior effort that create the marble texture on materials such as wood.

Pattern Sample

■ Painting the surface of metals (The paint type : oil paint)

When you work using the metal type at inside and outside of the building. Or when you do the painting on surface of the metal.

We recommend to you can make the fantastic patterns like the marble patterns. Also it is possible to produce the first new products in the worldwide by Chameleon 4.
