

## Company Information

**Company Name** DaeSin Power Co.,Ltd.

**CEO** KIM KYUNGSUB  
**Website** www.daesinpower.com  
**Tel** +82-31-871-2715  
**E-mail** kgs9251@daum.net

**Position** Senior manager-department head  
**Contact Person** KIM MINJUNG  
**Tel** +82-31-871-2715  
**E-mail** daesinpower@daum.net

### ● Company Introduction

Since its foundation in 2011, it has been developing, manufacturing and producing products such as fire fighting equipment, SPD and digital power analyzer with good faith and sincerity.

We are striving to achieve customer satisfaction through KS certification.

Based on our know-how up to now, we will always strive to respond to the constantly changing times and provide the best products to our customers by using safety, accuracy and speed as core competencies.

### ● Items

SPD : Surge Protector Device

DPM : Digital Power Meter

### ● Features

Surge Protective Device  
(SPD)

Digital Power Meter  
(DPM)

Earth Leakage Detector  
& Alarm  
(ELD)

Zero Phase Sequence  
Current Transformer  
(ZCT)

### ● Specification

Surge protector is a device to prevent the damage of power equipment from lightning impact voltage.

Digital power meter is a device that can monitor 3 phase, 3 phase, PF, Hz, Var, Kwh of switchboard and RS-485 communication.

The receiver and the transformer are compatible, so it's easy to handle.

ELD is a digital short-circuit alarm and can be applied with Micro cpu to mark leakage current between each circuit numerically, check and manage at all times.

You can control the extension or display of the buzzer by using the output contact terminal.
