formed
shapes

Fibertap-12W

Fibertap-15D

● Specification

Based on ceramic fiber, we can make any shapes that the customer need in their facilities. They can choose ceramic fibers by temperature. 1260. C, 1430. C, 1650. C

Fibertap-12W is made by ceramic fiber. Can you imagine wet and sticky ceramic fiber? Fibertap-12W is generally used in various areas where need to repair or difficult to construct with brick or castable.

Fibertap-15D is ceramic fiber based insulating castable. insulation ability is very good. and has longer life time than other materials. The fibers aggregated and the shrinkage late is very low.

Our customers used to use it their furnace door and ladle cover.
