Flugun

● Specification

제품 설명(특징 및 규격)

Patent:
spraying ultrafine chemicals
smaller than 20 micro
meters(μm)

Efficiency:
Ultrafine particle nozzle and
low-temperature
steam technology
help chemical solutions floating
longer and
maximizing its
effectiveness. (1 liter chemical
solutions can cover
up to 100 m²
space or 35 minutes use)

Anions: Generating 920,000 ea/cc
anions when spraying

Safety: Using eco-friendly and
harmless chemicals.

Automatic
Dispenser
(TH-903)

Operating Mechanism:
Infrared auto sensor dispensing

Capacity: 1000ml
Rated Voltage: Battery operated
(LR14 x 3ea) 4.5V

Product Size: 110(W) x 95(D) x
300(H)mm

Installation:
Wall mounted or Stand

99.9% sterilization

Sterilization
Tissues

PH Balanced, Non-Sensitizing, and
Hypoallergenic pulp &
rayon

Weight: 550g
Size: 180×200mm (80 Tissues total)
