● **Company Introduction**

For K-RON CO., LTD. as a company founded on a management philosophy putting priority on customer satisfaction, is growing as a company attracting customers confidence and love by producing and supplying products such as mould for interior and decorates etc by exerting thorough service and pioneering sprit.

All staffs and executives of K-RON CO., LTD. are working hard together to be a responsible company so we can get one step further closer to customers by leading an honest corporate culture as well as a creative service in response to limitless competition and changes that computerization and globalization era demands through the supply of satisfactory products at reasonable prices even under the situation that the competition among the relevant industry is becoming intensified. In addition, in order to provide high quality eco-friendly products with competitiveness through knowledge management and customer satisfaction, we' ll do our best to be a company repaying our customers for the trust and confidence they have extended to us through the endless Research and Development (R&D) activities

For the past thirty years, K-RON CO., LTD. manufacturing division has had the privilege of supplying the "Framing Industry" with the quality polystyrene frame moulding.

As a collateral benefit, K-RON CO., LTD. has steadfastly attained satisfied clientele along the way making "K-RON CO., LTD." a recognized name by many to be the Manufacturer of quality polystyrene frame moulding.

Its manufacturing facility is located in South Korea

● **Items (품목 및 제품명 등 한줄로 간단한 소개)**

[PLASTIC ARTICLE POLYSTYRENE PLANK](#)

● **Features**

[Polystyrene interior moulding and panel](#)

● **Specification**

Since the polystyrene moulding is free of deformation, warping or decay due to moisture while wood moulding and MDF moulding are weak in moisture and deform easily, polystyrene can be used for diverse applications such as bathrooms, multi-purpose rooms and gymnasiums.
