Mission & Value

Our Mission

- We believe in our people
- We listen attentively
- We honor our work
- We will do our best

Our Value

- Grace
- Client's satisfaction
- Quality of products
- Employee's satisfaction
- Help people

I. Cosmetic surgery

1. Thread lifting

Thread lifting is a safe facial rejuvenation procedure that does not require hospitalization or long recovery period and gives immediate and visible results. It can be performed in various areas of face and body.

Also used to give an overall facial rejuvenation. The effects of thread lifting are face shaping and contour that can give dramatic and immediate results that last from 12 months up to 5 years depending on the type of thread used. Layun Korea has developed then released a new thread line called ReNEW by Cog™ for better lifting results.

2. Filler

- View HA Dermal Filler

- View Ha Dermal Filler Black for face wrinkle correction as hyaluronic acid (HA) filler.

- View HA Dermal Filler Gold to give volume to the face.

-Winkfeel Diamond

Dextran + 13% PMMA (Polymethylmethacrylate) filler for improving vaginal walls pressure, GSAV and VRS.

3. MISMIZ Feminine Cleanser

Self-Care System that prevents and fights infections and bacteria. Also helps to maintain daily hygiene.

- MISMIZ Cleansers

- Inner Refreshing Wash 35ml for inner cleanse during shower.

- Inner Refreshing Cleanser 2.7ml for its use before and/or after sexual intercourse.

- Inner Refreshing Cleanser 180ml for external genital zone cleansing during shower.

- MISMIZ Beauty Gels

- Inner Beauty Gel 7ml for vaginal dryness and atopic vaginitis.

- Inner Beauty Gel 70ml for dryness in external genitals.

4. CMU Skin Care Line

Skin care routine line for daily use that contains up to 7 plants complex ingredients that helps the tired skin looks radiant again.

- Control Serum

- Whitening Control Serum

- Wrinkle Control Serum

- Acne Control Serum

- Moisturizing Control Cream

- UV Control Sun Cream

II. Drug Delivery System (DDS)

Drug delivery technologies represent a vast, vital area of research and development in pharmaceuticals.

Our research team is working to improve the properties of different biopharmaceuticals using various measures such as protecting therapeutics from proteolytic enzymes, reducing immunogenicity, enhancing proteins stability and improving the deliver to target systems of medicines.

III. Rapid Diagnostic Test (RTD)

Rapid diagnostic test (RDT) is an alternate way of quickly establishing the diagnosis of various diseases detecting specific antigens or antibodies in blood, urine, or saliva, etc.

We have developed RDT kits which have higher sensitivity and specificity under our own technologies.

1. Fertility hormone test: Pregnancy test and ovulation test

2. Infectious diseases test

- Sexually transmitted diseases test for AIDS (HIV1/2), syphilis, gonorrhea, herpes (II), chlamydia and hepatitis B.

Based on the recently obtained DDS patent, Layun Korea is leading in research and development in the field of biopharmaceuticals including arthritis, skin regeneration, and athlete's foot, etc.

Merits of ReNew Cog™ Corset®

- Safe & soft with cannula type(U, W)
- Effective lifting by grip park(spiral cog)
- Long lasting effective by retention part(spiral king cog)
- Individually packing of minimum quantity(4ea)

1. Thread Lifting : PDO

Most effective absorbable barbed threads for lifting with 360° rotating type as spiral

Corset is barbed multi directional with 360° rotating type as spiral.

It is similar with "Pine", so each multi directional barbs prop axis on lifting.

In addition to, Corset was designed specially asymmetric as grip part and retention part. Designed inadequacies in different angle, visible shape, barbs size, lifting can maximize gains.

Products

2. Filler : Winkfeel Diamond – Collagen implants

Winkfeel makes self-collagen and collagen capsule inside the vagina. The effect is good for GSAV. Collagen and new blood vessels inside the capsule is made will satisfy you and your partner at the same time.

KFDA certification received the efficacy and safety has been proven.

- Long acting implant effect
- *stem cell-like action when injected with fat
- Safe due to the main ingredient Dextran
- Contains Lidocaine(local anesthetics)

• Patent

4. Feminine cleanser: MISMIZ

MISMIZ products have been designed as a Self-Care System that prevents proliferation of various infectious germs in the Y-zone, alleviate existing conditions and recover the damaged self-cleansing functionality. Also help to maintain cleanliness and remove smells.

MISMIZ SELF-CARE 4 POINTS

We asked, "What are the important factors necessary for a woman's self-care?"

EASY

We made it 'easy to use' so that any women, including those with no sexual experience, could use comfortably and easily

DEFENSE

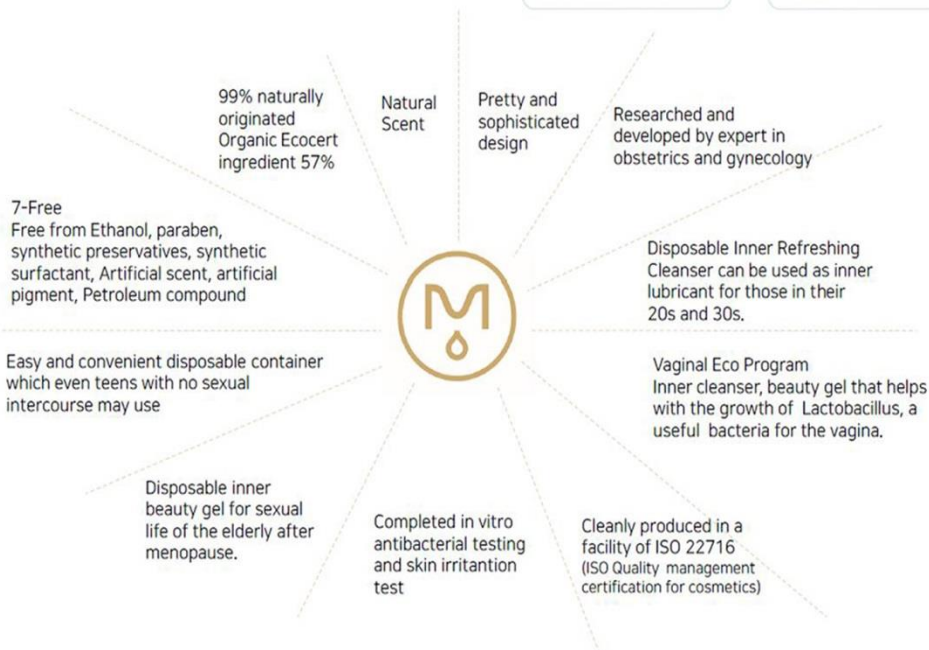

We made it to boost recovery of vaginal and cervical tissues and repair the self-cleansing functionality of the vaginal mucous epithelium

RECOVERY

We made it to suppress the proliferation of and infections from mold, sexually transmitted bacteria, and HPV.

NATURAL

We made it from natural ingredients. 99% of all ingredients excluding purified water are natural, where 57% are organic and Ecocert certified.

5. CMU skin care line

Take control of your skin!

Improve skin health by only using natural ingredients that match the different skin type's needs. This product line is being used in aesthetic clinics as treatment for different skin problems.

Serum

Three different serums containing 7 complex plants components for three different needs.

- Whitening Control Serum
- Wrinkle Control Serum
- Acne Control Serum

Cream

Moisturizing Control Cream with skin whitening and wrinkle control effect. Its hyaluronic acid and complex aminoacid components provide skin enough elasticity and hydration, making it brighter and youthful.

Sunblocker

UV Control Sun Cream creates a barrier that protects sensitive skin from UVA and UVB rays while providing moisturizing effect due to its complex aminoacid and natural ingredients composition.
