COOL SCARF

Refreshing neck wrap that provides a relief from heat

- Simply Soak in water!
- Long lasting cooling effect
- Comfortable fit
- Reusable up to 30 times
- Fashionable

How does the cool scarf works?

Crystal polymer is a super-absorbent, nontoxic developed to maintain moisture and can store up to 400 times its original weight in water. When the scarf is soaked in water, the granules absorb the water and evaporate for cooling effect. The scarf is kept cool and moist due to the moisture retention properties of the crystal polymer. Cooling time many vary depending on climate, metabolic regimen and so on.

Innovative & Creative design

SWEAT STOPPER

It disperses the sweat flowing on the forehead to the side preventing from inflowing into the eyes to make you feel comfortable

- Never saturates—no more soggy sweatbands
- Channels sweat away from eyes and glasses
- Stays in place during any activities
- Works great under the helmets and with any headwears
- Looks great during and after exercise
- Easy care—just rinse and go
- Light-weight, One-size-fits-all

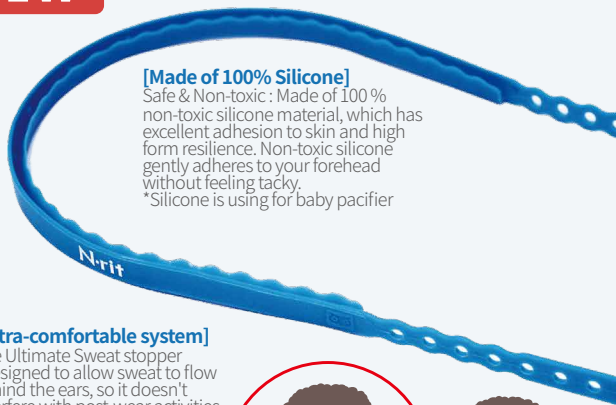

[One size fit for all]

Silicon-based integrated Sweat stopper : Make it easy to take off and put on. The comfort closure system adjusts easily for a perfect fit.

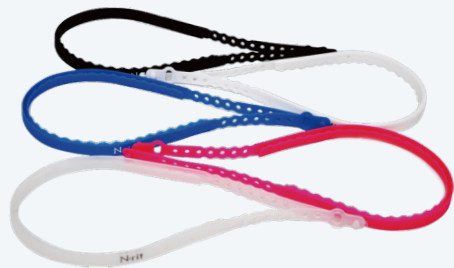

[Made of 100% Silicone]

Safe & Non-toxic : Made of 100 % non-toxic silicone material, which has excellent adhesion to skin and high form resilience. Non-toxic silicone gently adheres to your forehead without feeling tacky.
*Silicone is using for baby pacifier

[Ultra-comfortable system]

The Ultimate Sweat stopper : Designed to allow sweat to flow behind the ears, so it doesn't interfere with post-wear activities
